An aerial photograph of a dense, vibrant green forest. A river flows through the landscape, featuring several small, cascading waterfalls. The water is a clear, bright green, contrasting with the deep green of the surrounding trees. The terrain is rugged, with rocky outcrops and patches of lighter green vegetation. The overall scene is a pristine natural environment.

They will studying further ~~or~~ else start studying in the UK,
what he mentions in his statements later. In his opinion the spectrum
of quantity in relation to the immigration counting should be
under 100.000 (one hundred thousand) so rather a few ten-thousands.

He also refers to other results for example that there were
other properties and consequences before that thing
he mentions is that there would exist in the future
in relation to a population of 50 million and in reference
to the British tradition of hospitality. In addition to the
public services he says that it would be difficult health,
education and housing services. Looking back to the requirements,
he demands on the immigration, you could say that he supports

smart people who are smart, who want to fix their lives studying
