The background of the slide is a complex network diagram. At the center is a wireframe globe. Radiating from this globe are numerous nodes, each represented by a small dot and a numerical value. These nodes are interconnected by a web of thin, light-colored lines, creating a sense of global connectivity and data flow. The overall color palette is dark, with the network lines and numbers appearing in shades of light blue, white, and yellow against a dark brown and black background. The word 'SHARE.' is prominently displayed in the upper left quadrant in a large, white, sans-serif font.

FUTURE.

What is the inner DNA of a company today and how should it be in the future?

The innermost values, the identity, the mission and the vision are of vital importance, especially in times of upheaval.

Furthermore, a sustainable, resilient management culture must be able to answer the question of meaning for employees.

Future.

For collaborative work, away from the digital world, four principles have emerged for leadership.

Values
(Respect,
Trust,
Tolerance)

Openness

Collaboration

Affiliation
